

# Tenerdis

THE ENERGY TRANSITION CLUSTER  
IN AUVERGNE-RHÔNE-ALPES, FRANCE

LET'S COMBINE  
OUR ENERGIES !

tenerdis  
ENERGY CLUSTER  
Auvergne-Rhône-Alpes 

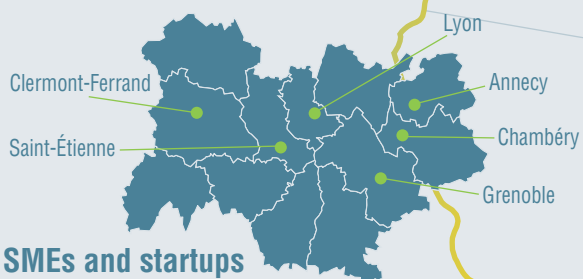

## OUR MISSION

Tenerrdis is the French energy cluster based in Auvergne-Rhône-Alpes, the largest industrial region in France and one of the most advanced in energy research.

It supports sustainable economic growth and the creation of long-lasting jobs in the new technologies of energy.

It coordinates an extensive network spanning industry, government, academia, and scientific research to contribute to the emergence, development and promotion of innovative energy transition solutions.

**244 members**  
in the 1st industrial  
French region

**59%** SMEs and startups

## KEY FIGURES 2020

**54** innovation projects  
supported by the cluster

Out of which **18** international  
or European projects

**64** events connecting **3,400** people

## YOUR GATEWAY INTO THE DYNAMIC AUVERGNE-RHÔNE-ALPES ENERGY INNOVATION ECOSYSTEM

Energy conversion  
and storage

Renewable energy production  
and integration into the energy mix

Embedded intelligence &  
cybersecurity for energy systems

**From production  
to energy usages**

Multi-energy microgrids

Carbon-free mobility

Energy-efficiency for buildings  
and industry

### We can support you in:

- finding local contacts to work on **your new business location** in our region,
- identifying **funding opportunities** for your R&D projects,
- searching for **potential partners** in our ecosystem,
- being your partner of choice for **dissemination and communication activities**.

As a member of the **International Cleantech Network**,  
Tenerrdis can reach out to **15,000 SMEs** and more than **100 cities** in Europe, North America, Argentina and South Africa.
